

COLOURPANEL™

SETTING THE  
STANDARD IN  
RESIDENTIAL  
FENCING

For great-looking, low-maintenance privacy fencing, Boundaryline ColourPanel sets the standard throughout New Zealand. No more twisted or rotten timber fences!

ColourPanel is truly a same-both-sides fence, which makes it ideal for residential properties because both neighbours get the 'good' side of the fence.

ColourPanel is made from pre-finished steel, as commonly used for roofing, and is durable and stable. It will not warp and twist like a timber fence, even when a dark colour is used in any climate.

Installation is very quick and simple with modular, colour-matched components. Even DIY customers are impressed with how easy it is to get the job done!

All ColourPanel needs to maintain the same look as the day it was installed is an occasional wash-down. No painting, no staining, no problems!

# WHAT'S GREAT ABOUT COLOURPANEL™

- Same-both-sides fence
- Low maintenance privacy fencing
- Quick and simple installation
- Colour-matched component
- No painting, no staining
