Boundaryline

WHO WE ARE

We're a customer-focused team, dedicated to making it easy for anyone in New Zealand to get the fence they need. We listen to what you tell us and work with you to reach the best solution for your project.

Innovation has been at the heart of what we do at Boundaryline Fencing Systems since the company was founded in Invercargill, with a range of timber Post&Rail fencing many years ago. We quickly found there were people throughout the New Zealand construction industry that liked our way of doing things, so our range of fencing systems grew quickly to meet the requirements of the market.

Today, with the widest range of fencing systems available on the New Zealand market and located in Auckland, Christchurch, and Invercargill – we have the products, service, and attitude to make fencing easy for you.
