Refer to PS1 when installing in any F4 or F9 situations

Standard Colours

Black

Thunder

Frost

Product Specification Sheet

SleekWall Solid Vertical

Care and Maintenance

When installing in-ground posts, slope concrete away from posts to limit water pooling around posts.

Avoid earth and soil coming into contact or building up against fence, and limit contact to fertilisers and garden chemicals.

Wash down regularly with soft brush and mild detergent solution. Avoid using harsh abrasive products.

Angle grinders should not be used to cut fencing.

Ensure gate tracks and rack are clear of debris and buildup.

Warranty

10 years (not within 0.5km of ocean or 1.5m from salt water pool)

Solid Vertical Gates

Stocked and typical gate widths and heights shown.

Any gate size can be custom fabricated to fit any required dimensions

Pedestrian Gates

Gate Height	1800mm
